Stebbing's Car Superstore offer the widest choice and value for [used cars Norwich](#) . I have test driven used cars Ipswich and used cars Stansted but they haven't offered such a wide selection of makes and models all under one roof. This car dealer has a floodlit pitch making it easier to fully inspect the car and check for any paint defects or signs of kerbing on the alloy wheels. If you do see any car repairs required, Stebbings can do this and even MOT your car if necessary prior to handover. Stebbings have over 400 used cars on display and available for test drive.
